*Management Unit, Sturt Gorge Recreation Park Vegetation Management Plan (2003)

**You will be asked to fill out a once-off form to provide to the school so that they have your contact information, as part of their COVID Safe plan. We will also be providing them with an attendee list for each meeting for their records.

Please note that all working bees are 3 hours. You are welcome to leave earlier – always work to suit your health. At the moment, please bring your own refreshments for morning tea. Your working bee coordinator can provide you with tools and personal protective equipment. Work priorities may change on the day if conditions are unsafe. Please remember to sign on, and sign off when you leave.

Any additional biodiversity and trail maintenance working bees will be promoted via the email list.
